

ON GUARD

Shield your greenhouse and nursery crops from chewing and sucking insect pests, including thrips, whiteflies, aphids, caterpillars and leaf-feeding beetles. As part of a preventive pest management strategy, put Mainspring® GNL insecticide on guard to keep pests out and crops clean.

- Systemic activity provides extended protection to save you time and labor on repeated applications
- Four-hour restricted-entry interval makes it less disruptive to work schedules
- Alternative to neonicotinoid chemistries
- Compatible with many biological control agents

EVERY FLOWER TELLS A STORY™

For more information on how Mainspring GNL can shield your greenhouse and nursery crops, visit www.GreenCastOnline.com/MainspringGNL.
